4. SPECIAL COURSE FOR SSC

(for Intermediates/Graduates)

CC-G4

Duration: 4 Months

This is a specially designed, well-focussed 4 months course for SSC aspirants. The schedule and format of the course covers all the necessary features, needed for the preparation of SSC exams.

Special Features of the Course :

The Syllabus designed for the course gives special focus on Advance Maths, General Science as well as studies and Vocabulary enriching skills. As chapters covered in Reasoning are a bit different from those in Bank and Railway exams, so only related chapters will be extensively covered.

To give a boost to your preparation, several well structure tests will be conducted during the course apart from the on-line practice to equip you for the actual mode.

Test Mechanism : Apart from on-line tests, four different types of tests will be conducted—

(i) Chapterwise Test & Interaction (CTI) : This test gives you the idea about how much you have grasped the subject matter of the chapter just finished.

(ii) Periodic Model Tests (PMT) : This test gives you the idea about how much you have retained the subject matter taught during the one month period. This is your first exposure to actual questions in the SSC exams.

(iii) Part Test Series (PTS) : Two such tests will be conducted during the tenure of the course. Each test covers the syllabus of half of the course. This gives you the idea of what are you upto, till the half part or the full part of the course.

(iv) Complete Syllabus Test (CST) : As it names, this test is conducted after the course. This is the actual off-line exposure of the SSC exam concerned. This one, plus the on-line exposure, gives you the complete exposure of the SSC exams.

Admission Procedure :

Those students who possess their required qualification and want to appear at the SSC exams can take admission in the course.

8. Personality Development Test : G.D. & INTERVIEW

(for Written qualified in Bank/SSC/Railway)

CC-G8

25 Days

Given the importance of G.D. & Interview in Bank P.O., SSC/RLY & various other exams, these classes are organized for those students who have qualified for the written Test. The purpose of these classes is to elevate students upto the degree of preparedness because talented students do not feel secure for their selection even after providing their potential in Written Tests.

G.D. (Group Discussion)

It is a methodology which is used by an organization / Institution / to test whether you have certain personality traits or skills that are desired by your selection committee.

For succeeding in the G. D. you have to follow certain basic traits, which make you path oriented towards the destination you are seeking. For achieving this, class room tips and strategy of KCC will assist you to stand as a winner or achiever.

Interview : It is aimed at evaluating your academic knowledge, awareness of current topics, communication skills, the clarity of thought expression, poise and sense of balance. If you are looking for a lucrative career opportunity you might be preparing yourself to be interviewed by various organizations and you must expect the unexpected.

These Days, team Interviews are more challenging than the traditional one to one encounter. In this situational Interview panel of KCC which has been forged with experienced and expert faculties has proved to be a boon.

As inferred earlier, interview has become an imperative part of selection. But organizations approach this task in different ways, with specific purposes and objectives. So some types of interviews are mentioned here :

1. Structured Interview : Most professional interviewers use this type especially when there is constraint of time and they are predetermined what they want to know. The interviewers, very often, have the questions or a checklist prepared in advance. Such interviews are impersonal and are based on facts offered by you. It leaves little room to understand you as a person

2. Unstructured Interview : Through this mode of interview, an interviewer studies the bio-data earlier and asks questions either to gather information, seek clarification of facts given, or to solicit information that one doesn't find in a bio-data such as motivations, aspirations and other personal qualities.

3. Board Interviews : These interviews are normally held at final stage. The intention is to have a group decision on the selection of a candidate as the job is of critical nature. Such interviews can be strenuous and may act as harrowing experiences. You may feel a hapless victim in front of a large number of panelists. So, you should concentrate on the person asking question and not bother about others. You also need to be calm and confident while facing interviews.

Admission Procedure : The admission to this course is open to all those students who have qualified the written test of any exam. Students are required to submit the proof of passing written Test.
